

# *Bulletin* of the Native Plant Society of Oregon

Dedicated to the enjoyment, conservation, and study  
of Oregon's native vegetation

---

VOLUME 33

NUMBER 2

FEBRUARY 2000

---

ISSN 0884-599

## It's Still Renewal Time

The NPSO membership year is January to December. Check your address label on the *Bulletin*. If there's a "99" on the top line, we haven't received your renewal yet. NPSO brings you field trips, programs, classes, the monthly *Bulletin*, and the annual *Kalmiopsis*.

**Your membership and donations make it possible to carry out more of the many projects that are needed to pursue the goals of NPSO.**

## It's Tax Time

The Internal Revenue Service requires non-profit organizations to acknowledge in writing all contributions of \$75 or more. We believe that this has been done, but any member who has not received an acknowledgment should contact the Membership Committee immediately.

The Board of Directors has adopted the policy that the first \$18 of any membership payment represents value received (subscription to *Bulletin* and *Kalmiopsis*), and only that part of dues payment exceeding \$18 is considered tax deductible for Federal and Oregon income tax purposes. Members requiring further information should consult their tax advisers.

Membership Committee  
Jan Dobak

## New Bulletin Editor Needed

If you are interested in helping NPSO as our *Bulletin* editor, please contact Bruce Newhouse at (541) 343-2364, [newhouse@efn.org](mailto:newhouse@efn.org). Each issue requires a short evening and long Saturday morning of work for the current editor. The *Bulletin* is

currently produced using MS Word and virtually all of the copy arrives by email so it can be quickly copied and pasted into the layout. The current editor, Richard Greenough, is eager to work with the new editor for an easy transition.

## New Bulletin Mailing Committee Volunteers Needed

See page 19 for details.

## Chapter News

### Blue Mountain

- Feb. 7, Mon. **Meeting:** 7 P.M. Small Business Development Center, SE 1st and Dorian, Pendleton. Program to be announced.
- Mar. 6, Mon. **Meeting:** 7 P.M. Small Business Development Center, SE 1st and Dorian, Pendleton. Charlie Johnson, Ecologist with Wallowa-Whitman National Forest, will give a slide presentation on Floral Gardens of America.

### Cheahmill

- Feb. 17-19 **Event:** Yamhill Soil and Water Conservation District annual native plant sale, Feb. 17-19, 2000. 9:00 A.M. to 6:00 P.M. 30 species of native shrubs and trees all in one place and at reasonable prices. Also available Oregon iris, wapato, and camas. Over 50,000 plants sold in 1999. 2200 W. 2nd, McMinnville. Volunteers needed to help. Call 472-6403 for more information.
- Feb. 24, Thur. **Meeting:** "Sedging Around Oregon," a slide talk by Keli Kuykendall. Keli is a botanist from Corvallis who specializes in Willamette Valley native plants. She is a member of the Carex Working Group, an association of botanists who study sedges, i.e., plants in the genus Carex. The Working Group has recently produced the Atlas of Oregon Carex, published by the Native Plant Society of Oregon. Copies will be available at the meeting for \$5.00. Keli was previously scheduled to present her talk at the October meeting but couldn't come because of illness. 7:00 P.M., Carnegie Room, McMinnville Public Library
- Feb. 26, Sat. **Work party:** 9:00 AM to 2:00 PM. Join the Friends of Deer Creek Park for a workday at the park to plant native riparian species along the new drainage channel and along Deer Creek. If we have plenty of people, we will also remove an old wire fence in the park. Bring rubber boots, gloves, rain gear, tools, lunch and drink (there is no water in park). Call Dave Hanson for more information (503-843-4338).

## Corvallis

- Feb. 14, Mon. **Meeting:** Loren Russell will present a slide show on "Wildflowers of the French Alps". Meet at 7:30 P.M. at the Avery House, Avery Park, Corvallis. For more information contact Gaylee Goodrich at 653-9227
- Mar. 13, Mon. **Meeting:** Rhoda Love will give a talk entitled "Aged Botanist Speaks on Plants: The Grand Old Man of Northwest Botany-Louis F. Henderson 1853-1942." Meet at the Avery House, Avery Park. For more information, please contact Gaylee Goodrich at 753-9227.

## Emerald (20<sup>th</sup> Anniversary Year)

- Feb. 12, Sat. **Field Trip:** Half-day local field trip to study lichens led by Daphne Stone. Meet South Eugene High School at 9:30 A.M. Prepare for rain and bring hand lens. For more information call Peggy Robinson, 744-0439.
- Feb. 28, Mon. **Meeting:** 7:30 P.M. Room 109, Science Building, LCC campus. "Botanizing in Baja." Gail Baker will present a slide illustrated plant ecology travelogue of the northern and southern regions of the Baja peninsula including the flora of islands in the Sea of Cortez. She has been studying plants in Baja since 1973 and her most recent visit was in March 1999.
- Directions: Due to construction around the LCC Science building where our meetings are held, you will have to follow a new access route. Park in the south corner of the east parking lot, walk toward the Center Building, then approach and enter the Science building from the north.
- Mar. 27, Mon. **Meeting:** 7:30 P.M. Room 109, Science Building, LCC campus. "Gardening for Butterflies with Native Plants". Dr. Linda McMahan of the Berry Botanic Garden will present a slide show featuring garden plants that attract butterflies for both nectar and for breeding.

## High Desert

- Feb. 22, Tues. **Meeting:** At the Environmental Center, 16 NW Kansas, Bend at 7:30. Our speaker will be Maret Pajutee, ecologist for Sisters Ranger District of Deschutes National Forest. She will talk on "An Ecologist's Perspective on Our Native Wildflowers." She will discuss and show slides of local wildflowers and discuss the ecological effects of fire, soils, climate, and land uses. It will be a great evening with one of Central Oregon's most informative and entertaining ecological experts.

## Klamath Basin

For information on the Klamath Basin Chapter, call David Lebo at 883-8393.

## Mid-Columbia

Feb. 2, Wed. **Meeting:** 7:30 P.M. at the Discovery Center Theater in The Dalles. Bill Wyler, Washington Department of Fish and Wildlife, is doing restoration projects on the Little Klickitat River and Swale Creek designed to improve fish runs and will give a progress report.

Mar. 1, Wed. **Meeting:** 7:30 at the Discovery Center Theatre in the Dalles. Kate McCarthy has been photographing the beautiful flowering meadows on Mt. Hood, and working for Mt. Hood meadows preservation for years. She will give us a slide show on the flowers of the mountain and an update on Mt. Hood Meadow issues.

## North Coast

For information on the North Coast Chapter, call Christine Stanley, (503) 436-0161.

## Portland

Feb. 8, Tues. **Meeting:** Forest Service regional bryologist, Dr. Judy Harpel, will present a program on the Biogeography of Pacific Northwest Mosses. The meeting will be held in the Fireside Room (#355) of the First United Methodist Church located at 1838 SW Jefferson St., in Portland. The room is open at 6:30 P.M. for socializing and the meeting will begin at 7 P.M..

Mar. 5, Sun. **Field Trip:** Workshop; Traditional Uses of Native Plants. Ethnobotanist Margaret Mathewson, our speaker at the November meeting, is offering a workshop at the coast. This is a chance for all of us to practice the actual techniques of our native peoples. Some projects we will participate in; Sitka Spruce root- digging, splitting, and peeling. Cedar bark- splitting, sizing and weaving. Stinging nettle- string making. Alder bark and lichens- preparing dyes, red, orange, brown, and yellow. Fee is \$10. **Pre-registration required.** Meet 8am at Cedar Hills shopping center parking lot, or 10am at Whiskey Creek Fish Hatchery. To register and for more info. Call Greg Stone at 233-4761 or Margaret at 541-486-4311.

Mar. 11, Sat. **Field Trip:** Catherine Creek. Always a great way to start the flower season as trip leaders Jan and Dave Dobak and myself will look for *Sisyrinchium douglasii*, *Fritillaria pudica*, and many others. Leave 8:30A.M. Gateway/99th Ave. Park and Ride, southeast corner of parking lot. Second meeting place, Bingen Winery parking lot on SR 14 at 10 A.M. Call Greg Stone, 233-4761 for more information.

## Siskiyou

Feb. 18, Thur. **Meeting:** 7:30 P.M., Room 171 of the Science Building, Southern Oregon State University. Donn Todt, lead gardener for the Ashland Parks and Recreation Dept., will present "Native Plants/Hybrid Landscapes: A Gardeners' Perspective". Call Susan Nyoka for more information, 482-2509.

## Umpqua Valley

Feb. 10, Thur. **Meeting:** Kelly Amsberry will speak on the research and monitoring the Oregon Department of Agriculture has been conducting on *Plagiobothrys hirtus* in the Umpqua Valley. She will present the latest information available on this critically endangered species. Douglas County Courthouse, Room 310, 7:00 PM. Call Richard Sommer at 673-3709 for more information.

## Willamette Valley

Feb. 14, Mon. **Meeting:** 7 P.M. Room 225, United Methodist Church, 600 State St. N.E.Salem. A slide presentation of Alaska flowers will be shown by George Schoppert.

## William Cusick

For information on the William Cusick Chapter, contact the Chapter President at the address and phone listed at the end of this *Bulletin*.

### IMPORTANT NOTE TO FIELD TRIP PARTICIPANTS

Field trips take place rain or shine, so proper dress and footwear are essential. Trips may be strenuous and/or hazardous. Participation is at your own risk. Please contact the trip leader or chapter representative about difficulty, distance, and terrain to be expected on field trips. Bring water and lunch. All NPSO field trips are open to the public at no charge (other than contribution to carpool driver) and newcomers and visitors are always welcome.

### NOTICE TO FIELD TRIP CHAIRS AND LEADERS

The Forest Service and other agencies have set policies limiting group size in many wilderness areas to 12. The reason is to limit human impacts on these fragile areas. Each group using wilderness areas should be no larger than 12.

### POSTAL NOTICE

Bulletin of the Native Plant Society of Oregon; Richard Greenough, Editor; 10765 SW Butner Rd #23, Portland, OR 97225. Published monthly. Subscription price \$18/year. ISSN 0884-599. Date and issue number on page 1.

---

Opinions expressed in this publication are those of the authors of the articles.  
They do not represent the opinions of the Native Plant Society of Oregon, unless so stated.

---

## NPSO 2000 State Office Candidates

The Nominating Committee offers the following list of candidates for state offices. Election ballots will be included in the March *Bulletin*.

### PRESIDENT

Bruce Newhouse, incumbent, was born in Oregon and fell in love with our native flora and fauna while growing up in the Portland suburbs and northern Oregon Cascades. He is a botanist, wetland scientist, and naturalist as a partner in Salix Associates. Since the early '90's he has been active in NPSO, serving stints as Emerald Chapter president, vice-president, and co-chair of NPSO's Rare and Endangered Committee. He is an at-large board member and the NPSO Statewide Atlas Coordinator for the Oregon Flora Project. Bruce is on the Atlas Committee, is a member of the Carex Working Group, and is a member of several local parks and storm water committees. He is an adjunct faculty member at the University of Oregon, co-teaching an urban habitat class in the Landscape Architecture Department. Bruce has worked to stimulate interest and activism in NPSO, particularly in building educational resources and providing input to public decision-making. He believes that as concerned, local residents we are the only stewards of our local ecosystems, and that we need to be more vocal and visible in that role.

### VICE PRESIDENT

Michael McKeag, incumbent, is a member of the Portland Chapter. His involvement with NPSO grew out of his interest in gardening with native plants. After a few field trips and a season as field trip coordinator for the Portland Chapter, he was hooked. Now his garden languishes while Michael is off in the wilds studying plants in their native habitat. He hopes to participate in an NPSO galvanized

with a sense of purpose that inspires others to join in. He would like to see NPSO become irresistible.

### SECRETARY

Rhoda Love, incumbent, of Eugene has been an NPSO member since 1972. She is a past state president of our Society and is a past co-president of the Emerald Chapter. Rhoda taught botany at Lane Community College for approximately 30 years. Now retired, she volunteers for the Oregon Flora Project in Corvallis and works on biographies of Northwest Plant Hunters.

### TREASURER

Eric Wold is a member of the Emerald Chapter. He enjoys botanizing and mushroom hunting with NPSO and landscaping his yard with plants native to the southern Willamette Valley. Eric is a natural resources planner for the City of Eugene, where he works on wetland conservation and Endangered Species Act issues. Prior to that, he worked as a wildlife biologist with the Willamette National Forest. Eric has an M.S. in ecology and evolutionary biology from the University of Missouri-St. Louis, and a B.S. in biology from Lewis and Clark College.

### DIRECTORS AT LARGE

Karl Anderson studied Genetics at the University of Wisconsin, Madison (his home town), then went on to a Master's Degree in Environmental Science at Washington State University, in Pullman, WA. Following that, he aspired to an academic career in Ecology and Evolution, but two years of doctoral work dissuaded him; instead, he became a Computer System Administrator. After a sojourn in the Washington, DC, area, he returned to the PNW, and eventually joined the computer support staff at the U.S. Environmental Protection Agency's Western Ecology Laboratory, in Corvallis. As he came to know the native plant communities of the Willamette Valley, he

learned how much has been lost, and decided to dedicate himself to their conservation and restoration. He has found the members of NPSO to be kindred spirits, and would be honored to serve on the Board.

Dan Luoma is an Assistant Professor in the Department of Forest Science at Oregon State University. Dan was a founding member of the Corvallis Chapter and has served the Society in many capacities since that time. He Chairs the Budget Committee and the Field Research Grants Committee and was appointed by the Board to finish Kathleen Cheap's term as a Director-at-Large. At the state level, he has previously been Vice-president, Immediate-past President, President, and Director-at-Large. He is currently Treasurer of the Corvallis Chapter and has served as chapter President and Vice-president.

Steve Northway is a member and immediate past president of the Corvallis Chapter and president of SEM, Inc. He has a resolute interest in the true conservation and recovery of our native ecosystems and species. He has worked to gain the cooperation of numerous agencies (Benton County Public Works, USDA Natural Resource Conservation Service, ODOT, etc.) in the preservation of our threatened and soon-to-be-threatened species. Our Willamette Oak Savanna ecosystem counts as one of the most endangered in North America and Steve has paid special attention to its plight and have studied the requirements of a number of its vanishing endemic plant species. He has held public education and recovery events attended by hundreds of community members to stimulate awareness of the need for conservation of their rapidly declining populations and of their associated insect companions. He believes this awareness is pivotal and is something that the Society should be deeply engaged in disseminating since extinction is something that only you can prevent. He lives in the eastern foothills of the

Coast Range with the coyotes and about 150 native plant species in his front yard, including a number of threatened ones, that have prospered and increased over the years under my carefully managed scientific neglect.

## Grant Proposals Requested

The Native Plant Society of Oregon will continue to sponsor small field research grants. The objectives of the program are: 1) to stimulate basic field research into the biology and distribution of Oregon's native and naturalized flora and vegetation, particularly in the more remote areas of the state, and 2) to promote native plant conservation through better understanding of Oregon's flora and vegetation and the factors affecting their survival. Persons interested in applying for funding can obtain a copy of the program policy and guidelines from Dan Luoma, Research Grants Committee Chair, 3740 NW Harrison Ave., Corvallis, OR 97330. The material may also be obtained at NPSO's World Wide Web site, <http://www.npsoregon.org/grants.htm> Research proposals are due by April 1, 2000 (note that this is a change of date.)

## New Bulletin Mailing Committee Volunteers Needed

Volunteers are needed for form a new Mailing Committee for the Bulletin. Marvel Gillespie and the late Bob Powne have headed this committee for the past four years, with assistance from April Fong and Barbara Linden. It is now time for other Portland area members to take over.

There should be at least three people, or couples, who can participate regularly in this task, so that no one needs to do the job more than once in three months. This also allows

scheduling flexibility.

The monthly task requires picking up the printed Bulletins from the printer in southeast Portland, adding two tape seals to each, attaching address labels, and delivering filled mailing trays to the Portland Post Office (Hoyt Street Station). This activity occurs about the third week of each month; a commitment to timeliness is essential.

If volunteers cannot be found for this task, NPSO will have to contract with a commercial mailing company. This will cost NPSO about \$2,000 per year. For this amount of money, NPSO could fund, jointly with Oregon Department of Agriculture, an additional summer internship for research on Oregon flora, or a variety of other activities. Which we do is up to you, the members.

Anyone interested, please call Marvel Gillespie (503-246-2368) or Dave Dobak (503-248-9242).

## Remembering Leighton Ho (1951-1987)

NPSO member, Dr. Leighton Chee Won Ho, died in a tragic drowning accident on the island of Kauai, Hawaii on December 20, 1987. Leighton was President of Emerald Chapter in 1983 - 1985, helping our chapter become involved in important environmental issues including the fight to establish the Waldo Lake Wilderness, conservation of rare species such as *Aster vialis*, and protection of fragile ecosystems especially along the coast.

Leighton loved Oregon and NPSO. He was born in Hawaii but attended college here. His specialty was mycology. He earned a BS at OSU in 1973 and a PhD at UO in 1980. Scott Sundberg, Oregon Flora Project Coordinator, recalls that he got his first taste of

plant systematics at the UO in 1975 with Leighton as his lab instructor. Leighton was a high school biology teacher in Hawaii at the time of his death. Contributions from his many friends and from his bereaved parents helped to establish the NPSO Leighton Ho Memorial Fund at that time. We opened a special account with contributed funds and the interest they accrued dedicated to awarding each year a Leighton Ho Field Botany Award for summer research.

The first recipient of the Ho Award was Jenny Lippert of Eugene, who used the \$400 stipend to study *Sidalcea cusickii* in southwest Oregon. The second year's award was to Robert Misley of Clackamas Community College who studied *Delphinium leucophaeum*. Recent awards have gone to Scott Jackson to study *Erigeron decumbens*, to Esther McEvoy and Ayn Whytemare to study *Sidalcea hirtipes*, to Kimberly Davis to study Willamette Valley wet prairies. Last summer's Leighton Ho award went to Susan Nyoka of Southern Oregon University to study pollination in *Darlingtonia californica*.

In 1990, 3 years after Leighton's death, the Ho fund contained over \$2,000 and earned approximately \$100 in annual interest. Unfortunately contributions began to decline in 1995. We contributed only \$200 this past year. Unless The Ho Fund receives a new influx of cash, it will soon no longer be able to cover the granting of the annual \$400 stipend.

I am writing a check to the Leighton Ho fund today and hope that many *Bulletin* readers will follow my example. I feel certain that Leighton's many friends as well as former recipients of the Ho Award will want to contribute, and I hope other NPSOers will as well. I know Leighton's widowed mother in Hawaii will be cheered to learn that this fund is alive and well and that Leighton has not been forgotten by the organization he loved. Send

your checks in any amount to NPSO Treasurer Eric Wold at the address in this *Bulletin*. Mark them "Leighton Ho Fund." Contributions may also be included with membership dues payments; just designate the amount on the renewal form in the space provided.

Happy New Year to you all!

Rhoda Love  
Emerald Chapter

### **Mt. Pisgah Arboretum Events**

**SATURDAY, FEBRUARY 12, 10 am-noon:**  
Winter Tree Identification with botanist Judith Manning. Practice indoor identification techniques using twigs and a printed key written by Dr. Rhoda Love (included in workshop fee). Bring a hand lens, pocket knife, and ruler if possible. Fee: \$10 (\$7 MPA members). Call (541) 747-1504 to pre-register. Location: Mt. Pisgah Arboretum Visitor Center, Buford Park, Eugene, OR.

**SPRING FIELD BOTANY WORKSHOP**  
Taught by Dr. Rhoda Love, retired LCC Botany Professor, Fri., Apr. 28 - Sun., Apr. 30, 2000, 9 A.M. - 3 P.M.

Learn to identify and recognize common wildflowers of the Willamette Valley. Includes discussion of botanical terms, plant family characteristics, and scientific names. Learn to "key plants" using *Flora of the Pacific Northwest* by Hitchcock and Cronquist. Explore plant community ecology in at least 3 different Willamette Valley locations to gain an awareness of the relationships between floral elements and ecological requirements.

More details: Sponsored by Mount Pisgah Arboretum and based at the Emerald People's Utility District building on Seavey Loop Road with daily field trips. Participants provide own

lunch, *Flora of the Pacific Northwest* book, hand-lens and field notebook. Fee: \$100 (\$90 MPA members). Limited space. Registration required. Call MPA Education Program to Register: 747-1504

### **Endangered Status Determination for *Fritillaria gentneri***

The Fish and Wildlife Service published a final rule determining endangered status for *Fritillaria gentneri* (Gentner's fritillary) on December 10. NPSO has been active in seeking protection for this species. The agency's summary of the decision follows:

"We, the U.S. Fish and Wildlife Service (Service), determine endangered status under the Endangered Species Act of 1973, as amended (Act), for *Fritillaria gentneri* (Gentner's fritillary) (= Mission-bells). This plant is found only in two counties, Jackson and Josephine, in southwestern Oregon. This taxon is threatened by residential development, agricultural activities, logging, road and trail improvement, off-road vehicle use, collection for gardens, and problems associated with small population size. This rule implements the Federal protection and recovery provisions afforded by the Act for *Fritillaria gentneri*."

**EFFECTIVE DATE:** This final rule is effective January 10, 2000.

**FOR FURTHER INFORMATION CONTACT:**  
Andrew Robinson, botanist, at U.S. Fish and Wildlife Service, Oregon Fish and Wildlife Office, 2600 S.E. 98th Ave., Suite 100, Portland, Oregon 97266 or by telephone 503/231-6179.

## Friends of the Oregon Flora Project – into the New Millennium

The Oregon Flora Project has big plans for the year 2000. Members are preparing a demonstration of the electronic plant Atlas and a checklist of Oregon sedges, rushes, lilies, and orchids. The Asteraceae Checklist will be put online on the OSU Herbarium web site. A push will be made to gather more plant site records for mapping. We of the Friends Committee are grateful for the sponsorship of NPSO as we work to raise funds to produce the new Flora of Oregon.

The Friends Committee now has seven active members. We are currently working on grant proposals to support the project and designing a portable information display to use next spring. We now have over 100 Friends. As we approach the new millennium please consider a special end of the year donation. Join if you are not a member or meet the Igo Challenge at your next chapter meeting. Thank you NPSOers for your support! If you would like to help, please contact Keli Kuykendall at (541) 758-8409 (kuykendk@peak.org) or write her at the Friends address.

Please make checks payable to:

Native Plant Society of Oregon

and mail to:

Friends of the Oregon Flora Project

P.O. Box 402

Corvallis, OR 97339-0402

## NPSO New Members

*September 5, 1999 to January 9, 2000*

### **Blue Mountain**

Dorothy E. Beardsley, Mary Ann Hamley

### **Cheahmill**

David Graham, H. Andrew and Margaret Johansen, Carol McCulley, Susan J. Williams

### **Corvallis**

Brooke Abbruzzese, Catherine Davis, Andy Gray, Jeannine & David Hart, Alisa Larson, Curt and Jana Seeliger

### **Emerald**

Sandy Atkinson, Anne Burrowes, Tanya Harvey, Aimee Johnson, Donovan K. Jones, Sue Mandeville, Rebecca Z. Meyer, Sandra Miles, Rick Momsen, Julia Mooney, Richard Nordeen, Philip S. Richardson, Jack Williams

### **High Desert**

Beverly Baumgardt, Dan and Jean Simonsen

### **Mid-Columbia**

Sandra J. Bisset, Mary Jean Lord, Donna I. Sauncy

### **North Coast**

Maren Berg-Rooper

### **Portland**

Elanor Abrams, Sheila Bailey, Lynne Bell, Kendra Bradford, Nancy Broshot-Hamilton, Ron Carley, Rebecca Currin, Julie Daly, Dawson A. Farr, James Hermes, David Jensen, Lori McDowell, Mary Rose Navarro, Laurie Nock, Catherine E. Pake, Scott and Pam Rooper, Shawn Schmelzer, Cynthia Sulaski, Theresa Verboort

### **Siskiyou**

Julie Ashton, Don Begnoche, Rey Bucquet, David Bunting, Dianne Fristrom, Susan Lander, Kristi Mergenthaler, S. P. Rust, Priya Shahani

### **Umpqua Valley**

Bonnie Freel, Nancy Grace

### **Willamette Valley**

Margot Hamilton; Mark, Julie, and Rory Nichols; Joy York
